

REVERSE OSMOSIS

2 OPTIONS AVAILABLE

-Reverse Osmosis with Accumulation Tank and Pump

-Reverse Osmosis with Accumulation Tank and Pump and UV Sterilizer

This kit has 6 stages, complete with pressurization pump, mixer, storage tank, activated carbon, (2 stages), sediment filters, UV lamp and osmotic membrane.

TECHNICAL SPECIFICATIONS

- Power Supply: 230V-50Hz
- Maximum working pressure: 8 bar
- Daily production: 50 GPD - 189 lt/day (7.8 lt/h), 75 GPD - 288 lt/day (12 lt/h), 100 GPD - 384 lt/day (16 lt/h)
- Reservoir: 3.2 GPD - 12lt, Opt - 6 GPD or 14 GPD tanks

CHARACTERISTICS

- Min - Max inlet water pressure: 2 bar - 7 bar
- Temperature Min - Max: 10°C - 45°C
- Total dissolved solids T.D.S Max: 1.000 mg/l
- PH Min - Max: 3-11

INSTALLATION
